

Minnesota Solid Waste Management Status Database

- Understanding the current state of solid waste is important during this ever-evolving situation.
- By using this application to report the status of your county-level services, solid waste facilities, and drop sites you are helping our industry to respond to community needs during this pandemic.
- **Note:** *this is not a substitute for regulatory flexibility, if you need to request regulatory flexibility from the MPCA, please use the special email address MPCA.COVID19REGFLEX@state.mn.us*

How to use this application

Understanding the current state of solid waste management is important during this ever evolving situation. By using this application to report the status of your county level services, facilities, and drop-sites you are helping build the understanding needed to respond to this pandemic across the state. This application was a partnership between SWAA, RAM, and the MPCA.

Thank you.

Edit County

County Status during COVID-19

SCORE

St. Louis - partial

Essential Services

All Solid waste services are essential.

Reduced or Cut Services

Closed our two Household Hazardous Waste drop off sites in Virginia and Hibbing until further notice. We are taking emergency

Access to MRF
